

SMART Exchange™

exchange.smarttech.com

Quick facts

- Access 30,000 resources organized by subject and grade
- Find 6,500 SMART Response questions for formative assessment
- Access thousands of standards-correlated lesson activities
- Available in over 20 countries

Discover easy-to-use, relevant, classroom-ready content and a growing, vibrant community at your fingertips. In one easy-to-access online location you can find, evaluate, download and share over 30,000 resources that can be effortlessly used with a variety of classroom technology products. You can also connect with colleagues locally or around the globe to exchange lesson activities, ideas, insights and classroom success stories. No sign-in or registration is required – just visit the SMART Exchange online community and start searching.

Easy-to-access educational content

When you visit the SMART Exchange, you can start searching for content right away. You can also refine your results with filters such as curriculum, grade, subject, media type and popularity. And when you find a resource that catches your interest, you can read more details about it and open a full visual preview.

Engage students with interactive resources

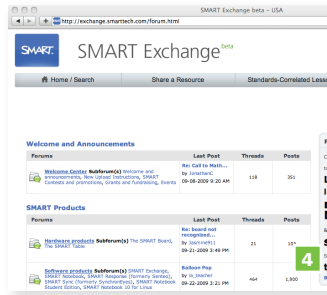

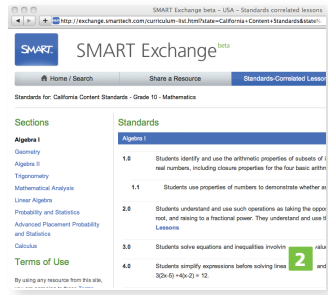

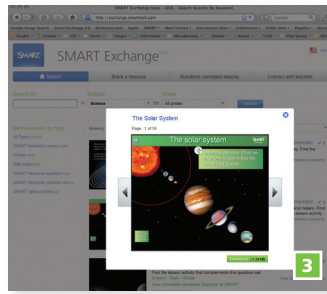

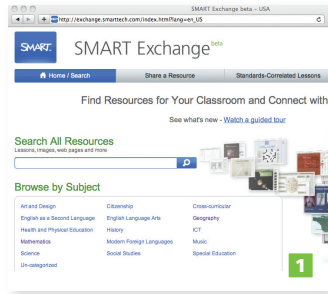

The SMART Exchange has a vast library of content to engage students and match their learning needs. You can access a wealth of standards-correlated SMART Notebook™ lesson activities created by both teachers and SMART education specialists. You can also find SMART Response™ questions sets, links to useful websites and a variety of multimedia resources.

Connect with teachers

Collaborate with other teachers or connect directly with SMART experts using the community features on the SMART Exchange. You can exchange ideas, find information and create and join discussions on topics that are important to you. Share your knowledge, celebrate your classroom achievements and inspire your colleagues.

Share lesson activities and resources

On the SMART Exchange, you can upload your lesson activities to share with other teachers, or you can download lessons that other teachers have submitted. And with SMART Notebook Express, teachers anywhere can access SMART Notebook lesson activities right away.

- 1 Search for educational content
- 2 View standards-correlated lessons
- 3 Preview content and get more details before you download
- 4 Connect with teachers and SMART experts
