SMART Room System™

The world’s #1 selling Skype Room System now supports inking over any application and offers even more sizes.

**Interactive Sharing**
No other Skype Room System allows you to ink on any industry application, not just Microsoft® Office.

**Six Sizes**
The SMART Room System offers more size configurations than any other system in the market.

**Seamless Integration**
The SMART Room System is the only Skype Room System that is manufactured and supported by one vendor.

The next level of collaboration using Skype for Business

The SMART Room System includes:

SMART Board interactive display(s) with appliance PC  Camera  Two, omnidirectional tabletop microphones  Administrative console  Integrated speakers  25 Personal licenses

SMART Meeting Pro

The features that separate SMART from the competition:

Interactive Display
The commercial-grade, HD/LCD display enables an unrivalled touch experience.

Enhanced Audio
Up to 5 tabletop microphones can be connected, ensuring effective coverage and integrated speakers offer high quality sound.

Panoramic Video
The HD camera has a 109 degree field of view that displays the entire room and adapts to any lighting condition.

Immediate Startup
Equipped with Proximity Detection, the display turns on when you walk into the room and meetings are are loaded at the press of a button.

Interactive Sharing
Enable dual touch and inking capabilities onto any application by plugging in a laptop and conducting a desktop share. Access the revolutionary Unbound Workspace from SMART Meeting Pro software, which lets you pan and zoom to any level of detail, whatever the detail and complexity of the content.

Administrative Console
With its 11.6” display, the console has large touch points, which makes controlling the overall meeting easier without the need for a remote control.

SMART Services and Support
Implementation and adoption consulting services ensure your SMART Room System is installed properly and is used effectively. Its reporting options give you detailed insight into system usage.
