</tbody>
</table>

NOTES

- Reach point refers to the height of the SMART Board interactive whiteboard’s touchable screen (see Mobility and display dimensions on page 4 for more information).
- See smarttech.com/support for your interactive whiteboard’s specifications.

Power source
The wall mount’s lifting mechanism operates from 115V to 230V sources. The wall mount uses 100 W while raising or lowering your interactive whiteboard and uses 3 W at 120 VAC to 8W at 240 VAC in Standby mode.

Security
Height-adjustable mount automatically locks in position

Mobility
The floor stand features two vertical grab bars which enable you to easily move the unit. The self-contained system rolls on 4" (10 cm) heavy-duty, non-marking, locking casters.

System stability
The floor stand is equipped with locking anti-tip feet compliant with CSA/CE safety requirements. Its wide footprint and reinforced steel frame provide excellent stability for writing on or touching your interactive product.

Room-to-room mobility
(SMART UX60 projector systems only)
Pivots through a 30" (76 cm) doorway

IMPORTANT

- When used with a SMART UF55, UF65, UF70 or UF75 projector, the floor stand is intended for in-room mobility only. The length of the boom on these projectors prevent them from passing through standard doorways.
- When used with a SMART UX80 projector, the floor stand fits through a 32" (81 cm) opening if you adjust the projector boom.
Environmental compliance
China EIP, EU REACH, EU RoHS, EU WEEE, US Packaging, US Conflict Minerals

Regulatory certification
CSA, CE, WEEE

Warranty
Two-year limited equipment warranty

Integration features
SMART Products
Your SMART Mobile Height-Adjustable Floor Stand integrates with many SMART Board projector systems.
For a list of supported products, see smarttech.com/supportedsystems.

IMPORTANT
The floor stand is not compatible with SMART Board 685 interactive whiteboards with serial numbers lower than SB685-R2-670000 or serial numbers lower than SD685-R2-002000 that were distributed in Europe and North, Central, and South America.

Storage and operating specifications
Operating temperature
Operating temperature range depends on your projector and interactive whiteboard. See your product documentation for more information.

Storage temperature
-40°F to 140°F (-40°C to 60°C)

Humidity
95°F (35°C) with up to 85% relative humidity, non-condensing

SMART order numbers
FS-UX Mobile Height-Adjustable Floor Stand for SMART Board interactive whiteboards. This product includes both a height-adjustable wall mount and a floor stand.
FS-UX-LTS Laptop shelf for the SMART FS-UX Mobile Height-Adjustable Floor Stand
