Highest position	44" (112 cm)	82 1/2" (210 cm)

With SMART Board
680, 685, 880 or 885
interactive whiteboard

- Reach points for the floor stand mounted with these interactive whiteboards:

Interactive

whiteboard position	Lowest reach point	Highest reach point
Lowest position	11 1/4" (28 cm)	57 1/2" (146 cm)
Highest position	36 1/4" (92 cm)	82 3/8" (209 cm)

NOTE

Reach point refers to the height of the SMART Board interactive whiteboard's touchable screen (see page 5 for more information).

Power source

You can set the voltage switch to either 115V AC or 230V AC.

Product uses 100 W while raising or lowering your interactive whiteboard and 3 W while in standby mode.

Security

Height-adjustable mount automatically locks in position

Mobility

The floor stand prominently features two vertical grab bars which enable you to easily move the unit. The self-contained system rolls on 4" (10 cm) heavy-duty, non-marking, locking casters.

System stability	The mobile floor stand is equipped with locking anti-tip feet compliant with CSA/CE safety requirements. Its wide footprint and reinforced steel frame provide excellent stability for writing on or touching your interactive product.
Room-to-room mobility (SMART UX60 projector systems only)	Pivots through a 30" (76 cm) doorway  IMPORTANT When used with a SMART UF55 or UF65 projector, the floor stand is intended for in-room mobility only. The length of the projector boom on these models prevents them from passing through standard doorways.
Environmental compliance	China EIP, EU WEEE, EU RoHS, US CPSIA and packaging
Regulatory certification	CSA, CE, C-Tick and FCC
Warranty	Two-year limited equipment warranty

Storage and operating specifications

Operating temperature	Operating temperature range depends on your projector and interactive whiteboard. See your product documentation for more information.
Storage temperature	-40°F to 140°F (-40°C to 60°C)
Humidity	95°F (35°C) with up to 85% relative humidity, non-condensing
