Standard Features

Finish: Silver-textured, powder-coated aluminum and steel construction

Projector Wall Mount: Two projector brackets allow you to install the NEC WT600 projector with a SMART Board 560 interactive whiteboard or a SMART Board 580 interactive whiteboard. The NEC WT600 projector is not included, so you must order it separately from your NEC dealer.

Projector: You can only mount an NEC WT600 projector on the projector wall mount. The cables that come with the projector often can’t reach the power outlet and the computer, so you may need to purchase longer cables.

Toggle Wall Anchor: Six 1/4-20 toggle wall anchors are included to install the projector wall mount on hollow stud walls clad with drywall sheeting.

NOTE: To install the projector wall mount on concrete or cinder block, you’ll need six anchoring devices that are suitable for the type of wall and are compatible with the provided 1/4-20 × 2" security hex screws. Such anchors usually require a drill and bit of a particular type and size. For more information, consult the directions that are included with the anchoring devices.

Screws and Keys: Ten No. 8-32 × 1/2", four No. 8-32 × 1" and six 1/4-20 × 2" security hex screws as well as four TORX® M4 × 40 mm security screws to safeguard the projector and mount. A 5/32" security hex key and a TR20 security TORX key are also included.

Warranty: Two-year limited equipment warranty

Installation Heights

When you install the projector mount above an interactive whiteboard, you must consider the height of the room’s ceiling. A ceiling height of 8'5" (2.57 m) will accommodate the recommended installation height for the pen tray of the SMART Board 560 interactive whiteboard, while a ceiling height of 8'9" (2.67 m) will accommodate the recommended height for the pen tray of the SMART Board 580 interactive whiteboard. If you have a low ceiling, the pen tray will be below the recommended height.

The following table shows the approximate resulting pen tray heights (measured from the floor) for various ceiling heights.

<table>
<thead>
<tr>
<th></th>
<th>Ceiling Height 8' (2.44 m)</th>
<th>Ceiling Height 8'5&quot; (2.57 m) or Higher</th>
<th>Ceiling Height 8'9&quot; (2.67 m) or Higher</th>
</tr>

SMART Order Number

PMWT-560: Projector wall mount for a SMART Board 560 interactive whiteboard that measures 60" (152.4 cm) on the diagonal
PMWT-580: Projector wall mount for a SMART Board 580 interactive whiteboard that measures 72" (182.9 cm) on the diagonal
Projector Wall Mount for SMART Board™ Interactive Whiteboards

Specifications – Model PMWT-560

For ceilings lower than 8'5" (2.57 m) the required distance from the ceiling to the top of the wall mount bracket is 3 1/2" (8.9 cm)

For ceilings higher than 8'5" (2.57 m) the recommended distance from the floor to the lower anchors of the wall mount bracket is 74 1/2" (189.2 cm)

The recommended pen tray height is 36" (91.4 cm) from the floor.

NOTE: A SMART Board 560 interactive whiteboard and an NEC WT600 projector are not included.
For ceilings lower than 8'9" (2.67 m) the required distance from the ceiling to the top of the wall mount bracket is 4" (10.2 cm)

For ceilings higher than 8'9" (2.67 m) the recommended distance from the floor to the lower anchors of the wall mount bracket is 77" (195.6 cm)

The recommended pen tray height is 32" (81.3 cm) from the floor.

**NOTE:** A SMART Board 580 interactive whiteboard and an NEC WT600 projector are not included.
NOTE: This template is for rooms with ceilings that are 8'5" (2.57 m) or higher (for the PMWT-560) and for rooms with ceilings that are 8'9" (2.67 m) or higher (for the PMWT-580).

NOTE: If you install the projector wall mount at a lower height, the pen tray height will be lower than recommended.
NOTE: If you install the projector wall mount in a higher position than recommended, you will not have adequate clearance between the projector mount and the ceiling.

NOTE: This template is for rooms with ceilings that are lower than 8'5" (2.57 m) (for the PMWT-560) and for rooms with ceilings that are lower than 8'9" (2.67 m) (for the PMWT-580).

For ceilings lower than 8'5" (2.57 m), this horizontal line must be 4" (10.2 cm) from the ceiling.

PMWT-560: 4" (10.2 cm)
PMWT-580: 4 1/2" (11.4 cm)

For ceilings lower than 8'9" (2.67 m), this horizontal line must be 4 1/2" (11.4 cm) from the ceiling.

PMWT-560: 8" (20.3 cm)
PMWT-580: 8 1/2" (21.6 cm)

PMWT-560: 10" (25.4 cm)
PMWT-580: 10 1/2" (26.7 cm)

PMWT-560: 21" (53.3 cm)
PMWT-580: 21 1/2" (54.6 cm)

PMWT-560: 27" (68.6 cm)
PMWT-580: 27 1/2" (69.9 cm)

All dimensions +/- 1/8" (0.3 cm)
