Standard Features

Software

Includes SMART Notebook software. See the SMART Notebook software specifications for a complete list of system requirements. Software upgrades are available at www2.smarttech.com/st/en-US/Support/SBS/.

Pen Tray

Optical sensors in the pen tray detect when you lift a pen or eraser from the tray. LED indicators show the active tool. Includes four pen tray pens (black, blue, red and green), and an eraser. The pen tray connects to the interactive whiteboard with a modular cable, and then connects to a computer with a 21’ 6" (6.5 m) USB/serial adapter cable. The USB/serial adapter cable has a DB9F connector at one end and a USB connector at the other end. You can order an optional serial cable.

NOTE: To order the interactive whiteboard without the pen tray, add “NP” to the end of the model number. The pen tray is then replaced by an electronic controller that fastens behind the overlay.

Display Control Strip

The display control strip enables you to initiate sleep mode, select the input source, toggle the display mode and access the control panel. This feature is available only for the Windows® operating system.

Mounting Brackets

Four mounting brackets secure the interactive whiteboard to the flat-panel display with eight No. 8-32 thumbscrews.

Front Surface Material

Hard-coated, anti-glare plastic designed for optimal light transmission. Chemical and scratch resistant.

Digitizing Technology

DViT™ (Digital Vision Touch) technology uses digital cameras to track an object interacting with the display surface.

Flat-Panel Display Connections

Includes serial cable for flat-panel display control—10’ (3.1 m), DB9F-to-DB9F (not available for some models)

Power Requirements

Switching power supply, 100V to 250V AC, 47 Hz to 63 Hz, 12V DC, 4.2A, 6’ (1.8 m) power cord

Power Consumption

Up to 40 W
