

SMART Board™ 600i

interactive whiteboard system

The SMART Board 600i interactive whiteboard system combines an award-winning SMART Board interactive whiteboard, your choice of an ultra-short-throw SMART UF75 or short-throw SMART UF65 projector and an extended control panel.

Adding flexibility to instruction, the 600i enables teachers to easily access and control all their classroom technology from one source. It's a complete system that offers extraordinary features at an affordable price.

Enhance teaching experiences

With the 600i, teachers have centralized control over the projector and other classroom peripherals. The extended control panel enables them to start the system quickly and easily switch between multimedia devices such as DVD players, document cameras and laptops.

The system's sleek and integrated design keeps the projector out of the way, ensuring shadows and other distractions don't interfere with teaching and learning.

Simplify installation and maintenance

The 600i is easy to install, manage and protect. The projector is located directly above the interactive whiteboard, eliminating the need for complicated wiring or ceiling mounting. And since the system is networked, you can connect the projector to your school's IP network to remotely control and manage it.

Expand your work space

For classrooms that use widescreen laptops or monitors, the 600i is available in a wide-format option. Offering 20 percent more space, the 685ix gives teachers extra room to work. It combines the 87" (221 cm) wide-format SMART Board 685 interactive whiteboard with the SMART UF75w or SMART UF65w projector, both of which feature a 16:10 aspect ratio and native WXGA (1280 x 800) widescreen resolution.

- 1 SMART UF65 projector – an integrated XGA (1024 x 768) projector that offers a 4:3 native aspect ratio and support for 16:9, 16:10 and 4:5 ratios. The ultra-short-throw SMART UF75 is also available.
- 2 SMART Board interactive whiteboard – a touch-sensitive interactive whiteboard that connects to your computer and projector and shows the computer's desktop image
- 3 Extended control panel – provides centralized control over classroom technology

Key features

Touch Recognition

You can write with a pen, erase with your palm and move objects with your finger without having to put the pen down to access other tools. The SMART Board interactive whiteboard automatically switches modes for you.

Network enabled

The projector is network enabled, so it can be connected to your school's IP network to enable commands to be sent or received through the web server or SNMP client.

Theft resistant

The projector is rendered inoperable if removed from the extended control panel or remote, while the Kensington® lock slot and projector padlock loop act as additional visual and physical deterrents.

Easy to maintain

The SMART UF75 and SMART UF65 projectors are filter free, have a long lamp life and resist color decay, image degradation and tinting, so the image stays sharp even after years of use.

Comes with SMART Notebook software

The 600i comes with award-winning SMART Notebook software.

Superb image quality

The SMART UF75 and SMART UF65 projectors use BrilliantColor™ technology to produce superb images with true-color quality and high levels of brightness and contrast.

Wide-format option

The system is available in wide format, providing 20 percent more working space.

Flexible setup

At installation, the SMART UF75 or SMART UF65 projector can be configured to accommodate multiple room sizes and SMART Board interactive whiteboard models. Both projectors fit interactive whiteboard models 660, 680 and 685. The SMART UF75 also fits model 690.

Warranty

The SMART Board interactive whiteboard has a two-year warranty, which extends to five years upon product registration. The SMART

UF75 and SMART UF65 projectors have a three-year warranty.

Durable

Durability is built into the SMART Board 600i interactive whiteboard system. The hard-coated polyester surface is tear proof and easily cleaned with any alcohol-free household glass cleaner or disinfected with a diluted bleach solution.
