Chapter 1

Installing SMART Notebook™

Computer requirements

- Pentium® III 1.2 GHz processor
- 512 MB of RAM (1 GB recommended)
- 350 MB of free hard disk space for minimum installation (900 MB for full installation with Gallery collections)
- X Window System™ version 11 release 6 (X11R6) or later (must support XRender and Xinerama™)
- glibc 2.3.3 (gcc 3.4.2) or later
- libstdc++6 or later
- GNOME™ 2.8.0+ (recommended)

Linux distributions tested

- Guadalinex V6 at kernel version 2.6.28-16-generic
- LLurex 9.09 at kernel version 2.6.27-17-generic
- MAX 5.0 at kernel version 2.6.28-18-generic
- Ubuntu® 9.04 at kernel version 2.6.28-18-generic
- Linkat 3.0 at kernel version 2.6.27.45-0.1-pae

NOTE

Only the kernels above are supported. All other distributions, including 64-bit Linux, aren't supported.

Autopackage

The SMART Notebook software 10 installer uses the Autopackage system. You need your root password to install SMART Notebook software 10 and the Autopackage system. For more information about Autopackage, go to www.autopackage.org.

Software installation

Before you install SMART Notebook, you must obtain a product key.

To obtain a product key

1. Go to smarttech.com/NB10ProductKey/.
2. Type your SMART product's serial number, choose your organization type, and then click **Continue**.
3. Complete the customer information form.
SMART e-mails you a product key.
4. Continue the download and installation procedures while you wait for the e-mail.
During the installation, use the product key you receive from SMART to activate your software.

NOTES

- You can activate every copy of SMART Notebook software 10 in your school using the same product key.
- Until you activate the software, you have only a 30-day trial version.

To download SMART Notebook software 10

1. Go to:
www2.smarttech.com/st/en-US/Support/Downloads/SBS/NBS10Linux.htm
2. Under the *SMART Notebook software 10 full download* heading, click **Download**.
3. Fill out the *Download software* form, and then click **Start download**.
The *Download Confirmation* page appears, and then the *File Download* dialog box appears.
4. Click **Save**.
The *Save As* dialog box appears.
5. Browse to where you want to save the file, and then click **Save**.
The *Download complete* dialog box appears.
6. Click **Close**.

To install SMART Notebook software 10

1. Browse to where you saved the file, and then double-click **SMART Notebook Software With Drivers 10.tar.gz**.
Your file compression program opens.
2. Decompress **SMART Notebook Software With Drivers 10.tar.gz**, and then browse to the decompressed folder.

3. If you have Autopackage installed on your computer, double-click **SMART Notebook Software With Drivers 10.package**, and then follow the on-screen installation instructions.

OR

If you don't have Autopackage installed on your computer, make the .package file executable and run it on terminal. This installs Autopackage and then the software.

i NOTE

For instructions on installing software with Autopackage, go to:

www.autopackage.org/howtoinstall.html

When the installation finishes, you can access SMART Notebook software 10 through the Applications menu in the GNOME window manager.

If SMART Notebook software 10 doesn't appear in the Applications Menu, the version or distribution of Linux doesn't support menu installation. You can use the command line to start SMART Notebook software 10 by typing **notebook** on terminal, or you can browse to **/opt/SMART Technologies/SMART Notebook/bin**, and then double-click **notebook**.
