- Understand the requirements to use SMART Notebook Maestro
- Access essential downloads to use SMART Notebook Maestro
- Get started with SMART Notebook Maestro
- Contact technical support with questions

About SMART Notebook Maestro

The SMART Notebook Maestro collaborative learning software is the latest addition to the SMART Notebook software platform. The SMART Notebook Maestro add-on connects SMART Notebook software and the SMART Notebook iPad app.

Once connected, it enables teachers to:

- Quickly connect SMART Notebook app for iPad via Wi-Fi with the SMART Notebook software
- Remotely control and interact with content from either your SMART interactive solution or from your SMART Notebook app for iPad
- Write, add and manipulate objects on the SMART Notebook app for iPad and have it appear on your display in the SMART Notebook software

SMART Notebook Maestro Requirements

SMART Notebook Advantage

SMART Notebook Maestro requires an active SMART Notebook Advantage subscription. A SMART Notebook Advantage license key may be purchased from your authorized reseller. To download SMART Notebook collaborative learning software (requires SMART Notebook 14.2 or later) access:

<http://www.smarttech.com/Home+Page/Support/Browse+Support/Download+Software>

SMART Notebook app for iPad

SMART Notebook Maestro requires the use of the SMART Notebook app for iPad. The SMART Notebook app for iPad is a light version of the SMART Notebook software that allows you to create multimedia files, complete assignments and share work. The iPad app can be downloaded at the App Store by searching the keywords **SMART Notebook**.

Note: The iPad app may be purchased individually or in bulk using Apple's Education Volume Purchase Program (must be an education customer and requires a minimum purchase of 20 to qualify).

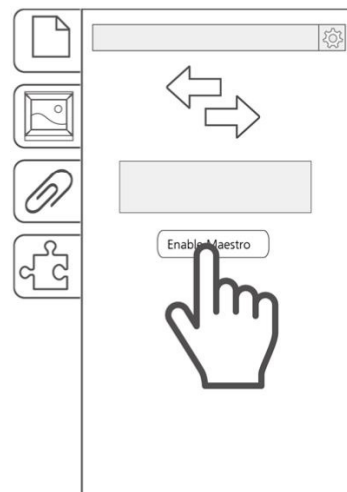

SMART Notebook Maestro

The SMART Notebook Maestro add-on may be downloaded from SMART by navigating to http://info.smarttech.com/20141031-Notebook-Maestro-Download_Landing-Page.html

Getting Started with SMART Notebook Maestro

To enable Maestro for use in the SMART Notebook software your iPad and computer must be on the same Wi-Fi network.

1. After downloading the SMART Notebook Maestro add-on, install the add-on by double selecting the download. Then select **OK** to continue and then **Done** to close the window.
2. Press the **Add-ons** tab in SMART Notebook. Select **Notebook Maestro** and then press **Enable Maestro**.
3. Restart SMART Notebook software. **Important:** You must restart SMART Notebook software to enable the connection.
4. Tap **Connect to SMART Notebook software** in the SMART Notebook for iPad app, and then follow the pop-up instructions in the iPad app to complete the connection process. **Note:** Use the SMART Notebook app for iPad to scan the **QR code** in the SMART Notebook Maestro add-on tab to enable the connection.
