

SMART LightRaise™ interactive projector

SMART
Inspired Collaboration™

The SMART LightRaise™ 60wi2 interactive projector combines powerful SMART Meeting Pro™ collaboration software with an industry-leading user interface. With ultra-short-throw capabilities, you can project onto almost any surface—including dry-wipe whiteboards and meeting room walls. It's the first interactive projector to offer differentiated touch and pen recognition, allowing up to four users to simultaneously write, draw and manipulate content.

Transform traditional workspaces

Revolutionise traditional dry-wipe whiteboard meeting rooms and team spaces. As an easy-to-use interactive solution, the SMART LightRaise 60wi2 opens up a world of multiuser collaboration, with meetings becoming more effective and engaging, and ideas and decisions more easily saved and shared with others.

Collaborate with multiple users

Up to four users can work simultaneously using natural touch capabilities. Two users can also work together using fingers, hand gestures or interactive pens. Built-in differentiation technology automatically detects whether a pen or finger is being used, without the need to stop your meeting and select from a menu.

Discover the Unbound Workspace

Take your meetings to the next level with SMART Meeting Pro. This powerful visual collaboration software allows you to create and capture ideas in a virtually limitless collaborative environment known as the Unbound Workspace. Plus, organise meetings and annotate notes over most applications.

Experience stunning visuals

With 3000 lumens of brightness, the SMART LightRaise 60wi2 delivers crisp HD visuals that keep participants focused and engaged. Ultra-short-throw projection also ensures that images are free of shadows and glare, creating more effective meetings.

Get more value and flexibility

Realise greater productivity through team collaboration with the SMART LightRaise 60wi2 interactive projector. It balances value with flexibility by easily integrating into existing whiteboard environments and it provides simple connectivity without the need for a dedicated in-room PC.

Work with added software and peripherals

Discover valuable extras that come included with the SMART LightRaise 60wi2, including the Extended Control Panel, SMART Meeting Pro 4.0 software and the SMART GoWire™ auto-launch cable with SMART Meeting Pro PE 1.1.

Key Features

Touch and pen-enabled interaction

Differentiated pen and touch capabilities automatically detect whether a user is working with a pen or their finger, creating a natural touch experience that's perfect for real-time collaboration.

Flexible installation

Project up to 254cm (100") onto virtually any surface—including dry-erase whiteboards and walls. It's a customisable solution that can fit any size of meeting room. For optimal use, SMART recommends the use of an anti-glare whiteboard surface (sold separately).

No dedicated in-room PC required

The SMART GoWire™ connection cable automatically launches SMART Meeting Pro™ Personal Edition software, allowing you to connect your Mac® OS X® or Windows® laptop directly to the projector.

Integrated with Microsoft software

SMART Meeting Pro software is integrated with Microsoft® Exchange™ and Microsoft® Lync®, letting you easily manage room bookings as well as share whiteboard notes after meetings.

Easy-to-use Extended Control Panel

The Extended Control Panel provides convenient control of projector volume, power and input source switching. DisplayLink® technology also allows you to connect to a laptop through a single USB cable, eliminating the need for extra video cabling.

Ultra-short-throw projector

Projecting from less than 80 cm away, images are free of distracting shadows and glare, allowing you to manipulate content and focus on your meetings without visual disturbances.

Brilliant images

Images appear clear and glare-free with over 3000 lumens of brightness. BrilliantColor™ DLP™ technology makes images more vivid and colourful. The SMART LightRaise 60wi2 is also HD-ready, with WXGA resolution that supports 720p and projects dynamic and visually stunning images.

Audio input and output

Includes a single, built-in 9-watt speaker and microphone input to deliver a complete audio solution that's ready right out of the box.

Interactive pens and pen holder

Includes two rechargeable interactive pens that can be stored in the convenient pen holder and charged via USB.

Warranty

The LightRaise 60wi2 includes a three-year warranty on the projector, with a one-year warranty on the projector lamp.

Specifications

Size

35.6cm W × 37.5cm H × 76.8cm D
(14" × 14 3/4" × 30 1/4")

Weight

12.7kg (28 lb.)

Included connectors/hardware

Power cord, 5m (16') USB A to mini-B cable, 5m (16') VGA cable, Extended Control Panel, SMART GoWire cable
