SMART Meeting Pro™ PE (Personal Edition) software

Extend collaboration from the meeting room to your PC or Mac. This personal edition of SMART’s powerful visual collaboration software enables you to edit files created during a collaboration session without being connected to a SMART Board® interactive flat panel.

Dual-mode user interface
The user interface and colour scheme can be customised to accommodate room conditions and content – making it easy to focus on content creation, consumption and to access tools.

Integration with Bridgit® conferencing software
Remote users can write straight into the collaboration workspace to contribute their ideas and notes.

Mac or Windows compatible
Continue to develop and revise meeting files on your own from your Mac or PC.

SMART Ink 1.5
SMART Ink automatically enables you to write in any application window.
