Take the SMART Meeting Pro™ Tutorial

Understanding how to use SMART Meeting Pro software is the key to working with the Freestorm™ visual collaboration solutions in your office. Once you know the capabilities of this software, you can start to transform meetings into collaborative work sessions where teams actively learn and share knowledge.

Skip to the *Additional resources* section if you're looking for information on a hardware solution.

Learning to use SMART Meeting Pro software
Browse to to take a training tutorial that you can customize to your learning needs. Select your SMART hardware products and your choice of meeting space, and then choose specific tasks that you want to learn about. The tutorial is also available through the integrated SMART Meeting Pro help system.

Setting up your meeting room
Use the drop-down menu to choose your type of meeting space, select SMART products and indicate whether your meeting includes remote participants.

Choosing your meeting tasks
Select a task by dragging a colored icon onto the timeline. Once you have all the tasks you want, click the **Finish** arrow to begin your customized training. For each task you choose you'll watch a video tutorial.

You can watch as few or as many videos as you want. Watch a single video to learn about one task quickly, or fill the timeline with tasks that are new to you.
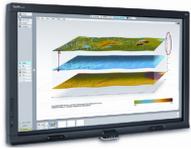

Additional resources

The following resources help you use the Freestorm solutions in your office.

If you're using a SMART Board® interactive whiteboard with a meeting room computer, start with this guide:
