Using touch gestures

Touch technology
When you use the SMART Board™ interactive flat panel or interactive whiteboard, you can perform touch and multitouch gestures on the interactive surface to control software applications.

**SMART Board 8000 series interactive flat panel**
Two people can work together anywhere on the interactive surface.

**SMART Board 800 series interactive whiteboard**
Two people can work together anywhere on the interactive surface.

Using touch gestures

</thead>
<tbody>
<tr>
<td>Quickly tap your finger on the interactive surface.</td>
<td>Quickly tap the interactive surface twice in the same spot.</td>
</tr>
</tbody>
</table>
## Using touch gestures

### Right-click (in Select mode)

Press and hold your finger on the interactive surface for three seconds.  

OR

Press the Right-Click button on the SMART Pen Tray.

### Erase (in any mode)

Use your flattened hand, palm or fist to press the interactive surface and move your hand across the area you want to erase.  

OR

Use the eraser tool in the SMART Pen Tray.
Using touch gestures

Using multitouch gestures

To enable gestures

1. Open the system’s Control Panel and select SMART Board.
2. Press SMART Hardware Settings.
3. From the dropdown menu, select Mouse and Gesture Settings from the list.
4. Select Enable Multi-Touch Gestures.
5. If you haven’t done so already, select Multitouch Mode.
6. Press OK to close the Control Panel.

Drag (in Select mode)
Move your fingertip over the interactive surface without losing contact.

Flick (in Select mode)
Quickly brush the interactive surface with your fingertip.
